AMENDMENTS TO THE CLAIMS:

W. IMITSIA FREE STANIST

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Makin .

- 1. (Currently Amended) A web offset heatset ink composition having less than about 2 wt. % of volatile organic compounds comprising an aqueous polymer latex dispersed in an ink base that comprises:
 - (a) a resin;
- (b) a non-volatile plasticizer <u>selected from the group consisting of tallate</u> <u>esters</u>; and
 - (c) a pigment;
- 2. (Original) The ink composition of claim 1, wherein said polymer latex is acrylic styrene copolymer latex.
- 3. (Original) The ink composition of claim 1, wherein said polymer latex comprises a protective colloid which comprises acid functional groups.
- 4. (Original) The ink composition of claim 3, wherein said protective colloid is an acrylic styrene polymer.
- 5. (Original) The ink composition of claim 1 wherein said polymer latex has amine functional groups.
- 6. (Original) The ink composition of claim 1, wherein said resin has acid functional groups.
- 7. (Original) The ink composition of claim 5, wherein said resin is a high acid number resin.

BEST AVAILABLE COPY

USSN 10/751,246 Amendment Under 37 CFR §1.111

- 8. (Original) The ink composition of claim 1, wherein said non-volatile plasticizer is ethylhexyl tallate.
- 9. (Original) The ink composition of claim 1 having about 1 wt. % volatile organic compounds.
- 10. (Original) A method for increasing drying or setting speed of a web offset heatset ink composition having less than about 2 wt. % of volatile organic compounds and which comprises:
 - (a) a resin;
- (b) a non-volatile plasticizer <u>selected from the group consisting of tallate</u> <u>esters</u>; and
 - (c) a pigment;

said method comprising adding to said ink composition an aqueous polymer latex.

- 11. (Original) The ink of claim 10 wherein said polymer latex has amine functional groups.
- 12. (Original) The method of claim 10, wherein said polymer latex is acrylic styrene copolymer latex.
- 13. (Original) The method of claim 10, wherein said polymer latex comprises a protective colloid which comprises acid functional groups.
- 14. (Original) The method of claim 13, wherein said protective colloid is an acrylic styrene resin.
- 15. (Original) The method of claim 10, wherein said non-volatile plasticizer is ethylhexylatallate.
 - 16. (Original) The method of claim 10, wherein said resin has acid functional groups.
 - 17. (Original) The method of claim 10, wherein said resin is a high acid number resin.

USSN 10/751,246 Amendment Under 37 CFR §1.111

- 18. (Original) The method of claim 10, wherein said ink composition contains abage of the contains abage of wt.% volatile organic compounds.
- 19. (Original) A method of increasing shelf stability of a Web Offsetsheatset inknow, or the reason more structured and which has less than about 2 percent by weight of volatile organic compounds. (VOC) and which comprises:
 - (a) an ink resin;
- (b) a non-volatile plasticizer selected from the group consisting of tallate esters; and
 - (c) a pigment;

said method comprising adding to said ink composition an aqueous polymer latex and a protective colloid which comprises acid functional groups.

- 20. (Original) The method of claim 19 wherein said polymer latex has amine functional groups.
- 21. (Original) The method of claim 19, wherein said polymer latex is acrylic styrene copolymer latex.
- 22. (Original) The method of claim 19, wherein protective colloid is an acrylic styrene resin.
- 23. (Original) The method of claim 19, wherein said non-volatile plasticizer is ethylhexyltallate.
- 24. (Original) The method of claim 19, wherein said resin comprises acid functional groups.
 - 25. (Original) The method of claim 19, wherein said resin is a high acid number resin.

" Hid?

1 4 26. (Original). The method offeltain 19, wherein said inknown position contains about the infinity of the many contains about the method offeltain 19. wt. % of volatile organic compounds.

BEST AVAILABLE IMAGES

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images include but are not limited to the items checked:

BLACK BORDERS

IMAGE CUT OFF AT TOP, BOTTOM OR SIDES

FADED TEXT OR DRAWING

BLURRED OR ILLEGIBLE TEXT OR DRAWING

SKEWED/SLANTED IMAGES

COLOR OR BLACK AND WHITE PHOTOGRAPHS

GRAY SCALE DOCUMENTS

LINES OR MARKS ON ORIGINAL DOCUMENT

REFERENCE(S) OR EXHIBIT(S) SUBMITTED ARE POOR QUALITY

OTHER:

IMAGES ARE BEST AVAILABLE COPY.

As rescanning these documents will not correct the image problems checked, please do not report these problems to the IFW Image Problem Mailbox.
